CT-KHS2-500ML	500ml Bottle
CT-KHS2-1L	1 Litre Bottle
CT-KHS2-5L	5 Litre Bottle
CT-KHS2-20L	20 Litre Drum

PRODUCT DESCRIPTION

Chemtools® Kleanitize No-Rinse Gel Hand Sanitiser is a fast working anti-bacterial sanitising gel with a 75% alcohol base and emollients to prevent the skin from drying out after repeated application. Kleanitize Gel is formulated for use in domestic and industrial environments, including manufacturing facilities, retail stores, food processing units, and any area where personal hygiene is critical to preventing the spread of disease and contamination.

As a no-rinse solution to soap and water, Kleanitize Gel is applied to dry hands and dissipates within 15 - 20 seconds after being worked into the skin.

NOTE: Avoid smelling the vapours whilst hands are wet. During application, and once applied, care must be taken to keep the product away from eyes to avoid serious eye irritation.

Shelf Life: 2 – 3 years

DIRECTIONS

Dispense a small quantity into one palm. Rub hands together to work the gel over the back of the hands and between fingers until dissipated, leaving skin hygienically clean and sanitised. Repeat as often as necessary.

FIRST AID & SAFETY PRECAUTIONS

Call a POISONS CENTRE or doctor if you feel unwell, have been affected, or are concerned. IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. IF IN EYES: Rinse cautiously with water for several minutes. If eye irritation persists, get medical advice. REFER TO SAFETY DATA SHEET BEFORE USE.

DISCLAIMER

Chemtools® has made every effort to ensure the information provided in this Technical Data Sheet is accurate at the time of publication.
