CT-KMS-250ML	250ml Bottle
CT-KMS-1L	1 Litre Bottle
CT-KMS-5L	5 Litre Bottle
CT-KMS-20L	20 Litre Drum

PRODUCT DESCRIPTION

Chemtools® Kleanitize Mistable Hand Sanitiser is a fast action anti-bacterial non-gel formula designed to kill 99.9% of bacteria, germs, and micro-organisms which commonly reside on human skin. It is ideal for use in domestic, industrial, and commercial environments where personal hygiene is critical to preventing the spread of disease, contamination, and many viruses.

Kleanitize Mistable is formulated with a 70% alcohol base - an aqueous solution at a level safe enough to apply without drying out skin, yet strong enough to confidently sanitise and protect.

NOTE: Avoid smelling the vapours whilst hands are wet. During application, and once applied, care must be taken to keep the product away from eyes to avoid serious eye irritation.

Shelf Life: 2 – 3 years

DIRECTIONS

Mist 1 to 2 pumps over the inside and outside of pre-washed (non-soiled) dry hands. Massage over hands, including fingers and palms for thorough and complete sanitation. Repeat as often as necessary.

FIRST AID & SAFETY PRECAUTIONS

Call a POISONS CENTRE or doctor if you feel unwell, have been affected, or are concerned. IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. IF IN EYES: Rinse cautiously with water for several minutes. If eye irritation persists, get medical advice. REFER TO SAFETY DATA SHEET BEFORE USE.

DISCLAIMER

Chemtools® has made every effort to ensure the information provided in this Technical Data Sheet is accurate at the time of publication.
