# COOLING **WRIST BANDS**

### DESCRIPTION

THORZT COOLING APPAREL IS DESIGNED TO ASSIST WITH HEAT STRESS PREVENTION BY PROMOTING THE **BODY'S THERMOREGULATION.** 

A cooler body improves the ability to sustain intensive workloads over longer periods of time. The THORZT cooling wrist bands are a great way to cool the skin. By wrapping the THORZT cooling wrist bands around your wrist (at the pulse point) you will immediately feel the cooling effect as the cooled blood quickly circulates around the rest of the body, reducing the cardiac output directed towards the skin and ultimately delay the onset of dehydration.

## **FEATURES & BENEFITS**

- When wet, stays cool while you're active.
- Hook and loop closure for custom fit.
- Comfortable, cool mesh polyester outer with Sermokool™ fabric inner.
- Hand washable doesn't effect cooling.
- Lightweight and durable.
- Promotes heat exchange at the wrist, an area of high blood flow, enabling the cooled blood to quickly circulate around the rest of the body.

# CARE INSTRUCTIONS

- Hand wash using a mild soap in warm water, rinse and hang to dry.
- Do not store or pack wet. If odour occurs, use the washing instructions listed above.
- Cooling results may vary based on several factors: saturation level, climate, temperature, humidity, and body temperature..

## PRODUCT DETAILS

Materials: 100% Polyester, Polymer embedded fabric

(53% Polymer / 47% Cellulose)

Size: One size fits most

### **ACTIVATION**

- 1. Submerge the THORZT Cooling Wrist Bands in any temperature water and let it soak for 1 to 2 minutes.
- 2. Wring out the excess water, leaving it nice and moist.
- 3. Wear to activate.
